Job Description

Duties include but are not limited to:

- The Cleaner provides the cleaning and upkeep of an assigned area. The assigned area could be an aircraft, building, hospital or other facility. Cleaner must be flexible and willing to complete all tasks that are assigned. Duties may include cleaning and maintaining carpets and hard surface floors by vacuuming, sweeping and mopping floors. Dusting furniture, pictures, ventilation, lights and blinds, emptying wastebaskets, cleaning windows, restrooms and other normal cleaning and maintenance duties. Must be flexible in other duties as assigned by supervisor.

Job Description

Duties include but not limited to:

The Building Engineer supports the designated leadership with the daily operations of all building systems. This includes hard surface maintenance and repair, basic carpentry and metal work, operating, maintaining and repairing all facility system equipment associated with HVAC operations and mechanical and electrical systems. The Building Engineer will also respond to customer requests and submit and close work orders as necessary and perform other duties as assigned.

A large orange rectangular graphic with the text 'Facilities Engineer' in white, bold, sans-serif font. The graphic is positioned over a background image of a man in a dark shirt and pants standing on a balcony or walkway, looking at a clipboard. The background image is partially obscured by the orange graphic and has a blue tint.

Facilities Engineer
